

Assessment Task 2B - Data analysis project: presentation

Start Assignment

- Due Saturday by 23:59
- Points 20
- Submitting a file upload

The description of this task is available in the [detailed assessment brief](#)

(<https://canvas.uts.edu.au/courses/41818/files/13452063?wrap=1>)_ ↓

(https://canvas.uts.edu.au/courses/41818/files/13452063/download?download_frd=1) .

Since it's a group assignment, one member from each team should submit the work on behalf of the entire group. This presentation will take place online via Zoom. The Zoom meeting will be available on your Canvas calendar.

Online Group Presentation: You are required to submit your presentation file before your scheduled presentation date. If not all members of your group wish to present, you can nominate a spokesperson. It's important to note that, regardless of who presents, all group members will receive equal marks. Presentation skills are crucial as you approach graduation, as they are essential in virtually any career. Whether you work in academia, industry, or any other field, the ability to effectively convey your findings to key stakeholders is invaluable. This task is designed to provide you with valuable practice in honing your presentation skills.

The AT2B group presentation will be conducted on Zoom with four parallel sessions. Please find the link to your respective session below:

Presentations will follow the group number order. If you have any preferences or special considerations regarding your time slot, please inform your assigned session instructor. You may choose to present as a group, take turns, or nominate a spokesperson.

Important:

- Please submit your PowerPoint file before the presentation date, so we can record your grades on Canvas during your presentation session.
- Further details about the assessment are available in the **Assessment Brief** document under the Assignments tab on Canvas. Each group will give a 10-to-15 minute presentation on their project.

If you have a preferred time slot for your presentation, please inform your assigned session instructor. Otherwise, presentations will be sequenced according to group numbers. We encourage group members to take turns to present; however, if your group prefers, you may designate a single representative. Everyone is welcome to ask questions during other groups' presentations. We believe this will provide a rich learning experience for all involved.

Presentation Rubric			
Criteria	Ratings		Pts
Quality and professionalism of presentation Quality and professionalism of presentation, and responses to questions, that are well tailored for your specified non-technical audience.	5 Pts Full Marks	0 Pts No Marks	5 pts
Problem formulation Strength of rationale and framing for research questions and preliminary results (including graphical and numerical summaries), along with clearly delineated limitations of the proposed study.	5 Pts Full Marks	0 Pts No Marks	5 pts
Result Interpretation Effectiveness in presenting the exploratory data analysis to the defined stakeholder that enables rapid sense-making and prompts new insights.	10 Pts Full Marks	0 Pts No Marks	10 pts
Total points: 20
